

## 2017-2018 Project Work Plan

### Focus Area 1: Minimum Data Set (MDS)

- **Mapping the psychiatry workforce using the MDS:** Using secondary data and working with the respective professional organizations, the Center will conduct a national study to enumerate and map the location of psychiatric providers, defined to include psychiatrists, psychiatric nurses, psychiatric physician assistants, and psychiatric pharmacists. Attention may be given to identifying those responsible and equipped for treating the opioid epidemic.
